

200 SERIES

200 Series Articulating Monitor Arms

The Ergotech 200 Series Articulating Arm is an easy, quick and cost effective solution for mounting one to four 27" monitors. Allowing you to expand and convert from one to four monitors, with NO TOOLS needed!

The 200 Series Articulating Arm allows for customized monitor positioning. Easily slide the monitors up or down on the pole to meet your height requirements. Use the patented Quick Release Pivots to tilt the monitors left and right, up and down. Rotate between both portrait and landscape views.
