

DMRS-2

DESK MOUNTS

FULLY ARTICULATING. RUGGED BUILD.

This double joint, dual monitor desk mount allows for increased workspace by removing your monitors off of your desk. The robust, high grade steel design is built to withstand daily use and resist scratches. Full motion structure allows for smooth, effortless rotating and positioning for any direction.

FEATURES

- **Rotation:** 180° monitor rotation for optimal viewing experience – portrait / landscape.
- **Adjustable:** Height adjustment along entire pole.
- **Robust:** Steel construction provides a solid, and long lasting performance.
- **Tilt:** Monitors can tilt 45° up and 45° down.
- **Swivel:** Arms can move 90° forward and 90° backwards for full motion positioning.
- **Cable Management:** Cable clips run along both arms and the pole for a tidy workspace free of loose cables.
- **Compatibility:** 75/100mm VESA compliant (adapter included).
- **Detachable VESA:** VESA plates can be detached to enable easy installation.
- **Mounting:** Desk clamp and grommet mount options included.
